APPENDIX A

Survey Background

APPENDIX A
SURVEY BACKGROUND

The Education Directory, 1974-75, Higher Education (NCES 75-119) was the source for the list of institutions included in the survey on which this report is based.

Institutions of higher education included in this report are classified as either 2-year or 4-year institutions, with universities as a separate subclassification of the latter. The 4-year institutions are those that offer programs extending at least 4 years beyond high school. They comprise all institutions that grant bachelor's or higher degrees or some recognition equivalent to such degrees; e.g., ecclesiastical recognition in theological institutions. They may also offer organized occupational programs of less than 4 years that result in an associate degree or some other recognition of completion such as a certificate or diploma. Universities are those institutions that place considerable emphasis on graduate instruction and have at least two professional schools that are not exclusively technological.

The numbers of institutions in the fall 1974 survey, and for comparison in the 1973 survey, were as follows:

	1974			1973		
	Total	Public	Private	Total	Public	Private
All institutions	2,763	1,222	1,541	2,736	1,209	1,527
4-year institutions	1,756	452	1,304	1,729	446	1,283
Universities	159	94	65	159	94	65
Other 4-year	1,597	358	1,239	1,570	352	1,218
2-year institutions	1,007	770	237	1,007	763	244

Aggregation of Branches in Tabulations

To achieve maximum comprehension of the differences between the old, traditional method of aggregation and the new method, institutional units that have changed their classification in the new system of aggregation have been made easily identifiable. Six separately identifiable classifications of institutional units have replaced the former three. Thus, instead of simply universities (including all their branches), other 4-year institutions (including all their branches), and independent 2-year institutions, six classifications of institutional units are now identifiable--the three original classifications of institutions plus three additional classifications for branches of institutions: other 4-year branches of universities, 2-year branches of universities, and 2-year branches of other 4-year institutions. These six classifications are identified by numerical code, as follows:

1 - University (including only those branches classified at the university level)
2 - Other 4-year institution (including only those branches classified at the other 4-year level)
3 - 2-year institution (including only their own branches)
4 - 4-year branch of university
5 - 2-year branch of university
6 - 2-year branch of other 4-year institution

The first three codes, of course, include branches of institutions, if they are at the same level as the parent institution. In the past, branches have always been aggregated with their parent institutions, but now the capability exists to aggregate them either with their parent institutions or with institutions and branches at the same (program) level:

Before	After
University = 1 + 4 + 5	University = 1
Other 4-year = 2 + 6	Other 4-year = 2 + 4
2-year = 3	2-year = 3 + 5 + 6

Inasmuch as equal emphasis has been placed on both whole institutions and individual institutional reporting units, users will find the following table of the six classifications of institutional units--institutions and branches--of considerable assistance in understanding the impact of moving branches from their parent institutions to groups of institutions at the same program level:

	1974			1973		
	Total	Public	Private	Total	Public	Private
All institutions	3,038	1,453	1,585	3,015	1,443	1,572
Universities	161	96	65	161	96	65
Other 4-year	1,626	364	1,262	1,601	359	1,242
2-year	1,058	818	240	1,061	814	247
4-yr. br. of univ.	102	92	10	103	93	10
2-yr. br. of univ.	75	75	-	74	74	-
2-yr. br. of other 4-year	16	8	8	15	7	8

For the convenience of the reader, the questionnaire, instructions, and definitions used in the survey are reproduced in appendix B of this report. Complete data were received for all 2,763 institutions (3,038 institutional units) in the survey, and total enrollment figures for these institutions have been entered in each cell of the questionnaire.

Questionnaire Editing

Each report form filed in this survey was compared with the report form filed by each institution for the comparable 1973 survey. Large differences in enrollment patterns were accepted if reasons for them were readily apparent. If further information was needed, institutions were contacted by letter and/or telephone for verification, revision, or additions to the figures reported. These procedures undoubtedly eliminated the larger reporting errors, but the extent to which small, unrecognized errors may remain is unknown.

For the convenience of the reader as well as for ease in statistical tabulation, totals have not been rounded but are given as they were obtained--by simple addition of the figures for individual institutions. This does not imply that totals and subtotals are accurate to the last digit. It was believed, however, that the data could be more conveniently used if the many subtotals obtained in the analysis were reported in such a way that they would add exactly to the totals. Also, in view of the care with which the data were compiled by respondents and reviewed by the National Center for Education Statistics, it seemed appropriate that the totals reflect the individual reports.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: *(1)* an institution having two or more campuses responsible to a central administration *(which central administration may or may not be located on one of the administratively equal campuses)* or *(2)* an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus *(sometimes called the parent institution)* is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for each institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis *(i.e., has a relatively permanent administration)*, which offers an organized program or programs of work of at least 2 years *(as opposed to courses)*, and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

IF THE EDUCATIONAL PROGRAM AT YOUR INSTITUTION HAS CHANGED DURING THE PAST YEAR SO THAT THIS YEAR'S FALL ENROLLMENT REPORT IS SIGNIFICANTLY DIFFERENT FROM THE REPORT SUBMITTED IN FALL 1973, PLEASE EXPLAIN THE DIFFERENCES.

PLEASE READ THE FOLLOWING INSTRUCTIONS AND DEFINITIONS BEFORE COMPLETING THIS FORM. DETACH THIS PORTION AND RETURN THE COMPLETED FORM TO THE U.S. OFFICE OF EDUCATION, NATIONAL CENTER FOR EDUCATIONAL STATISTICS, ATTENTION: ROOM 2164-HEGIS, 400 MARYLAND AVENUE, SW., WASHINGTON, D.C. 20202, OR YOUR **HEGIS** COORDINATOR.

DEFINITIONS

FULL-TIME-EQUIVALENT ENROLLMENT data requested on this year's form are for **PART-TIME STUDENTS** only. Report FTE's as **WHOLE** numbers only.

FIRST-TIME STUDENTS – Entering freshmen who have not previously attended **ANY** college. Include students who attended college for the first-time in the summer of 1973. Also include students who entered with advanced standing *(college credits earned before graduation from high school).*

BACHELOR'S-DEGREE-CREDIT PROGRAMS – Any work creditable toward a bachelor's degree. In 2-year institutions, those programs from which the credits earned are transferable to a bachelor's degree program.

NON-BACHELOR'S-DEGREE-CREDIT PROGRAMS – Organized occupational curriculums of less than four years, primarily in the vocational and technical fields, not chiefly creditable toward a bachelor's degree. Normally terminal and result in formal recognition such as a certificate or diploma.

LOWER DIVISION – In 4-year institutions, includes freshmen and sophomores in bachelor's degree programs. In 2-year institutions, includes students in associate degree programs. Also includes, in all levels of institutions, students in terminal-occupational programs of one, two, or three years that result in formal recognition below the baccalaureate.

UPPER DIVISION – Students who have completed the sophomore year and typically are enrolled in a 4- or 5-year bachelor's degree program. *(Students in professional programs of 6 or more years should generally be included on line 08).*

UNCLASSIFIED STUDENTS – Not candidates for a degree or other formal award, although taking courses in regular classes with other students. This category includes students who cannot be classified by academic level as well as students who already have degrees but who are taking additional courses at the same degree level or lower; this also applies to students with degrees below the baccalaureate at 2-year institutions.

FIRST-PROFESSIONAL STUDENTS – Students enrolled in a professional school or program which required at least 2 academic years of college work for entrance and a total of at least 6 years for a degree. Report only students in those first-professional degree programs in the fields of medicine, law, and theology specified in Part A of OE Form 2300-2.5 Students Enrolled for Advanced Degrees. Students in programs requiring only 4 or 5 years beyond high school should be reported as undergraduates.

GRADUATE STUDENTS – Students who hold the bachelor's or first-professional degree, or equivalent, and are taking work at the graduate level.

FULL-TIME STUDENTS – Those whose academic load–coursework or other required activity–is at least 75% of the normal full-time load.

NORMAL FULL-TIME LOAD – Usually determined by dividing the total number of credits required for completing the program by the number of terms normally required to obtain them.
